PROFESSIONAL SUMMARY

Final year Bachelor of Information Technology student with hands-on experience in full-stack web development across multiple technology stacks including MERN, Java Servlets, Python, and .NET. Completed a 3-month frontend development internship at Websoft Technology Nepal, contributing to a live production ticketing platform. Demonstrated ability to deliver end-to-end projects independently and in teams, from requirements to deployment.

EDUCATION

Bachelor of Information Technology (BIT) Oct 2023 – Dec 2026 (Ongoing)
Informatics Pokhara College, Matepani-12, Kaski

- Relevant coursework: Web Development, Database Management, Application Development, Advanced Java, Software Engineering
- Final Year Project: Apartment Management System using MERN stack

WORK EXPERIENCE

Frontend Developer Intern 2024 · 3 Months
Websoft Technology Nepal — Pokhara, Nepal

- Designed and developed the admin and organization panel UI for **Great Ticket**, a live production ticketing platform (greatticket.my)
- Built responsive, cross-browser compatible interfaces using HTML, CSS, JavaScript, and Bootstrap
- Collaborated with the backend team to integrate UI components with server-side APIs
- Followed company code standards and participated in design review sessions

PROJECTS

Apartment Management System (Final Year Project) 2025 – 2026
MERN Stack — MongoDB, Express.js, React, Node.js

- Built a full-stack apartment management platform with tenant management, payment tracking, and admin dashboard
- Implemented RESTful APIs with Express.js and designed a NoSQL database schema in MongoDB
- Developed a responsive React frontend with role-based access for admins and tenants

Journal Application 2024 – 2025
C#, .NET MAUI, Blazor, Razor — Application Development Module

- Developed a cross-platform journal application using .NET MAUI and Blazor with Razor syntax
- Implemented CRUD functionality with SQLite local database for offline data persistence
- Designed a clean, mobile-friendly UI following .NET component patterns

Charpangre — Vehicle Selling Platform 2024
Java, Servlets, MySQL, Maven, MVC — Advanced Java Module

- Built a vehicle buying and selling web application with full CRUD operations and admin/user dashboards
- Applied MVC architecture using Java Servlets and JSP with MySQL database integration
- Implemented search and filtering features to improve user experience

Printronic — E-commerce Printer Shop (Group Project) 2023 – 2024
HTML, CSS, JavaScript

- Collaborated in a team to build a responsive frontend e-commerce website for a printer shop
- Implemented product listing, navigation, and interactive UI components with vanilla JavaScript

Land Rental System 2023
Python — Fundamentals of Computing Module

- Developed a command-line application to manage land rental records and tenant agreements

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C#, HTML, CSS, SQL
Frameworks & Libraries: React, Node.js, Express.js, .NET MAUI, Blazor, Bootstrap, Tailwind CSS
Databases: MongoDB, MySQL, PostgreSQL, Oracle, SQLite
Tools & Concepts: Git, GitHub, VS Code, Maven, MVC Architecture, REST APIs, CRUD Operations
